

FLOW REGULATING BALL VALVES

15mm Compression

15mm x 1/2" Swivel

Introduction

Inta's flow regulating ball valves are supplied complete with their own flow regulation device fitted as standard, making it the ideal component for many installations including bathroom's, kitchens or point of use outlets where water control and usage is critical. These factors make it ideal for BREEAM compliance according to appropriate flow regulator model and subject to water calculation.

- **Isolation Valve & Flow Regulator In One**
- **Compression or Swivel Connections Available**
- **4, 6, 8 Litre Flow Regulating Options**
- **Easy to Install & Operate**
- **Ideal for BREEAM Compliance**

Part Code

Description

WVL154	Flow Regulating Ball Valve 15mm Compression 4 Litre Flow
WVL154SW	Flow Regulating Ball Valve 15mm x 1/2" Swivel 4 Litre Flow
WVL156	Flow Regulating Ball Valve 15mm Compression 6 Litre Flow
WVL156SW	Flow Regulating Ball Valve 15mm x 1/2" Swivel 6 Litre Flow
WVL158	Flow Regulating Ball Valve 15mm Compression 8 Litre Flow
WVL158SW	Flow Regulating Ball Valve 15mm x 1/2" Swivel 8 Litre Flow
