

CODE:

TRMAGFIL22

TRMAGFIL28

DESCRIPTION

22mm TRADE-TEC Magnetic Filter

28mm TRADE-TEC Magnetic Filter

TECHNICAL SPECIFICATION

MAX TEMPERATURE:

90 °C

MAX PRESSURE (DYNAMIC):

4 BAR

INLET CONNECTIONS:

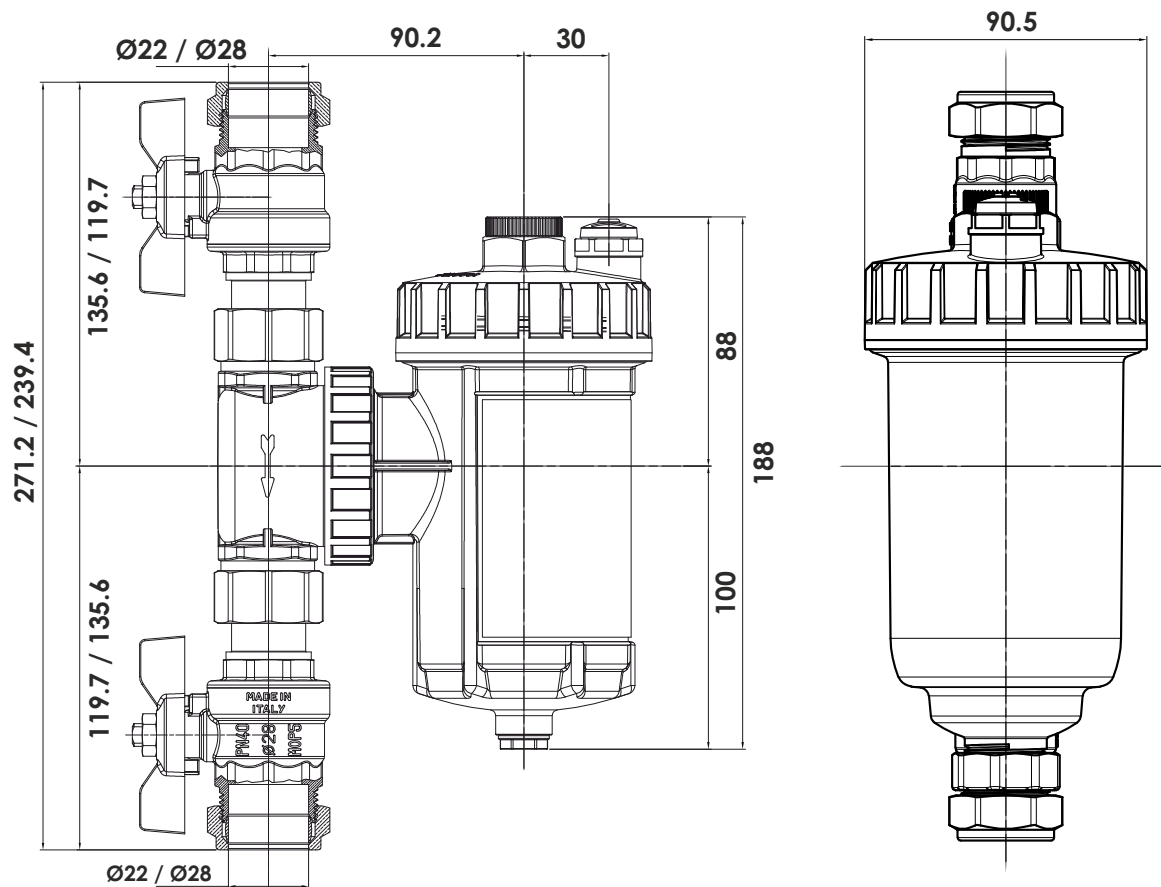

22MM / 28MM

MAGNET:

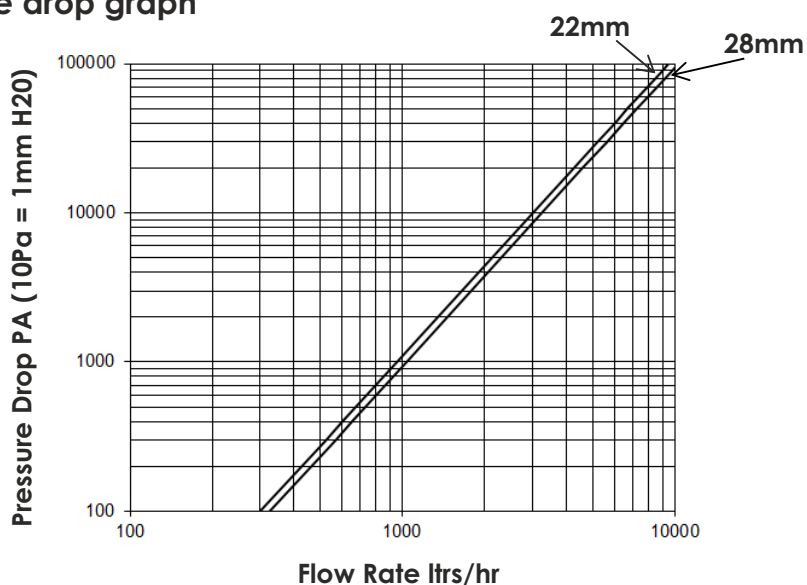

11,000 GAUSS

- Lid designed with hexagonal nut to eliminate the need for a removal tool when servicing
- Unique Double Gauze Non-Ferrous Filter
- 360° Rotation for ease of servicing
- Manual Air Vent
- Removable High Strength Magnet
- 500mm Dosing pot can be used for chemical dosing without having to drain down the system.
- Actively Filters Magnetite & Non-Ferrous System Debris
- Low Profile Drain Valve
- Short Installation Footprint
- Convenient in Line Fitting

*Dimensions in mm

Pressure drop graph

22mm Kv (m³/h): 9.50

28mm Kv (m³/h): 10.30
