

SOLAR EXPANSION VESSEL CONNECTION KITS

SOVK-ZSV-1

Introduction

Intas range of expansion vessel connections are designed to make the installation of solar rated expansion vessels quick and easy. Wall mounted and supplied with a length of annular corrugated pipe to connect to the system, our kits are provided with a 3/4" BSP female vessel connection, making them suitable for use with our solar rated range of Zilmet expansion vessels up to 18 litres.

SOVK-A200 Kit

- Attaches expansion vessel to solar systems
- Wall mountable
- Supplied with annular corrugated pipe
- Self isolating vessel union
- Manual isolation valves also available
