

Product

Solar Plus Wall Mounted Expansion Vessels

Technical Specification

Materials

Shell: Carbon Steel

Membrane: ZILAN Solar Membrane

Max Pressure: 10 Bar

Colour: White

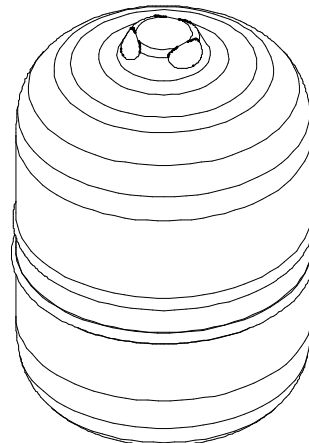

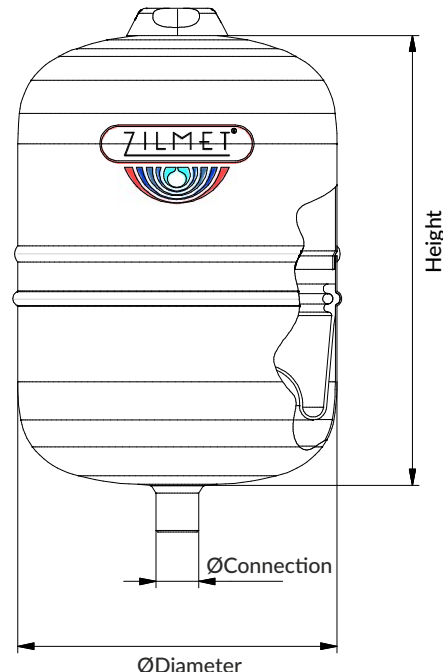

Operating Temperature: -10°C - 110°C

Code	Capacity	Diameter	Height	Pmax	Pre charge	Connection
2001207	12	270	264	10	2.5	3/4"G
2001808	18	270	349	10	2.5	3/4"G
2002506	24	300	392	10	2.5	3/4"G

Wall mounting bracket code: RSMB2

Drawings

Additional Information

Suitable for solar systems in accordance with DIN4757 and EN12977

Manufactured according to PED 2014/68/EU & EN13831

Comprehensive range of expansion vessels for solar systems

Range of intermediate vessels available if required to lower the temperature between the solar thermal circuit and the solar plus vessel
